Tension
28 sts and 36 rows to 10 cm (stocking st) on 3 1/4 mm needles or size needed to achieve stated tension.

It is important to check your tension before starting your garment. If there are too many stitches to 10 cm, your tension is tight and you should change to a larger size needle. If there are too few, your tension is loose and you should change to a smaller size needle.

Caution
It is essential to work to the stated tension, and we cannot accept responsibility for the finished product if any yarn other than the specified yarn is used.
